## ABOUT US

International Name Plate Supplies Limited (INPS) was established in London, Ontario in 1966 and has supportive manufacturing facilities across North America. Our team is dedicated to working with our clients by ensuring a collaborative approach to design, manufacturing, and comprehensive support.

# Through business partnership INPS brings your ideas to life.

INPS is a versatile and diverse manufacturer and provider of programs for numerous industries. INPS can provide full-scale component acquisitions and design services from idea to manufacturing to installation; **we do it all.**

INTERNATIONAL NAME PLATE SUPPLIES LTD. (INPS)  
IS A PROUD MEMBER OF THE INPS GROUP OF COMPANIES

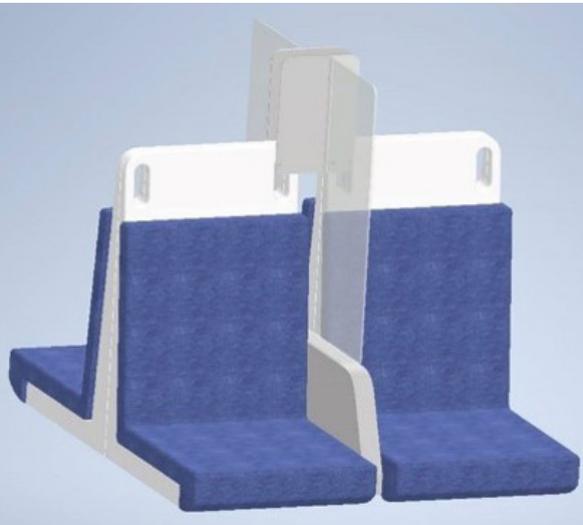

## RESEARCH & DEVELOPMENT

INPS participates in the Canadian Scientific Research and Development (R&D) program which allows for product development, tooling design, manufacturing methods and equipment design. This allows us to offer in-house research, design and development.

**We are adaptable and seamlessly integrate into your company's culture.**

## OUR CERTIFICATIONS

- Women Business Enterprise Certification
- ISO 9001: 2015 Certification
- Controlled Goods Certification
- Joint Certification

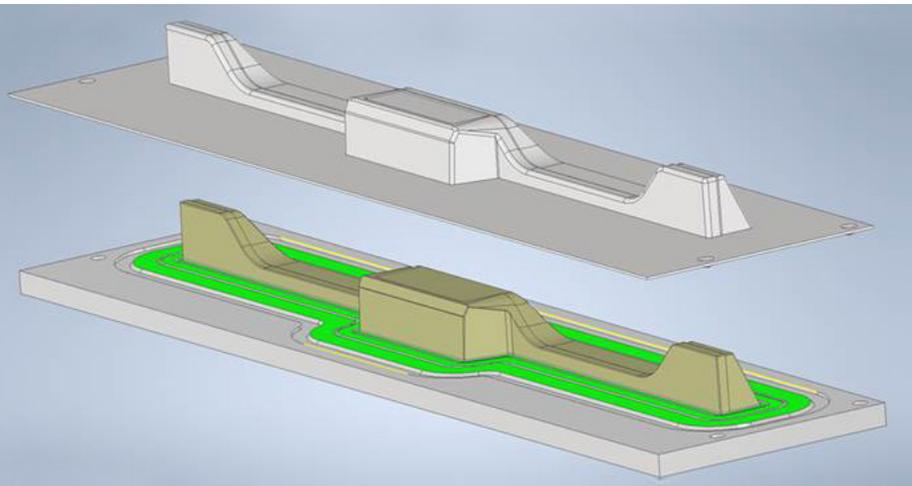

## DESIGN

- Full team of graphic designers
- Integrate materials, structure with aesthetics
- Importing of electronic files in multiple formats
- Colour matching

**Since we are a manufacturer, we are able to envision the designs from concept to the production floor.**

Through our designers and engineers, we can provide the most innovative technologies available.

INPS works closely with 3M experts to find the right products for the needs of our customers.

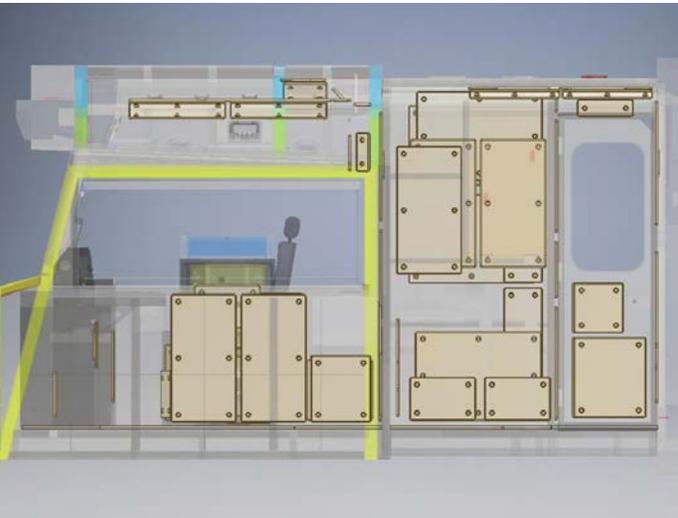

## ENGINEERING

- 3D Scanning for Rapid Reverse Engineering
- Rapid Prototyping
- Material Selection
- Material Testing
- Process Support
- Product and Installation Training
- Product and Material Development
- Solids Modeling

# Versatile and diverse engineering capabilities

We work with many different digital tools to help with design, this includes working fully in 3D from scanning to modeling to sample creation.

We can make prototypes, perform testing on the prototype as/if required and once the prototype is approved, we would finalize the mfg. process and start running in production.

## SUSTAINABILITY

INPS Group of companies is committed to reducing our environmental impact. During planning, and throughout the manufacturing processes we are committed to reducing our emissions, energy use, water consumption and waste. We continuously monitor, analyze and improve our practices, processes and policies.

**Our goal is to make environmental sustainability a priority in all aspects of our business model.**

INPS initiated a 3M reuse program where end caps are returned to the 3M company to be reused in future orders.

INPS has a refresh surface program working with 3M materials that can be used to refresh a surface structure instead of replacing it.

## MANUFACTURING CAPABILITIES

### CNC CUTTING

Waterjet Cutting, Flatbed Knife Cutting, Laser Cutting, Router Cutting

### COMPOSITES

Fiberglass – Polyester, Epoxy and Acrylic modified Resin, Resin Casting – Epoxy, Urethane Foam Casting

### CONVERTING

Commonly converted 3M materials:  
3M™ DI-NOC™ Architectural Finish,  
3M™ FASARA™ Glass Finishes,  
3M™ Reflective Material

### ENGRAVING

Laser CO2, Laser Fiber, Rotary, Chemical Etching

### KITTING

Kits, Sub Kit, Just In Time Delivery

### LAMINATING

Adhesives, Premask, Protective Over Laminates, Anti-skid , 3M™ Scotchgard™ Multi-Layer Protective Film 1004

### PAINTING

HVLP Spraying Acrylics, Urethane Enamels, Masked Painted Parts

### PRINTING

UV Digital Printing, Latex Digital Printing, Screen Printing, Up to 5' x 12', Up to 6 colour in-line

### THERMOFORMING

Vacuum Forming, Low to Mid Volume, Fast Turnaround Time

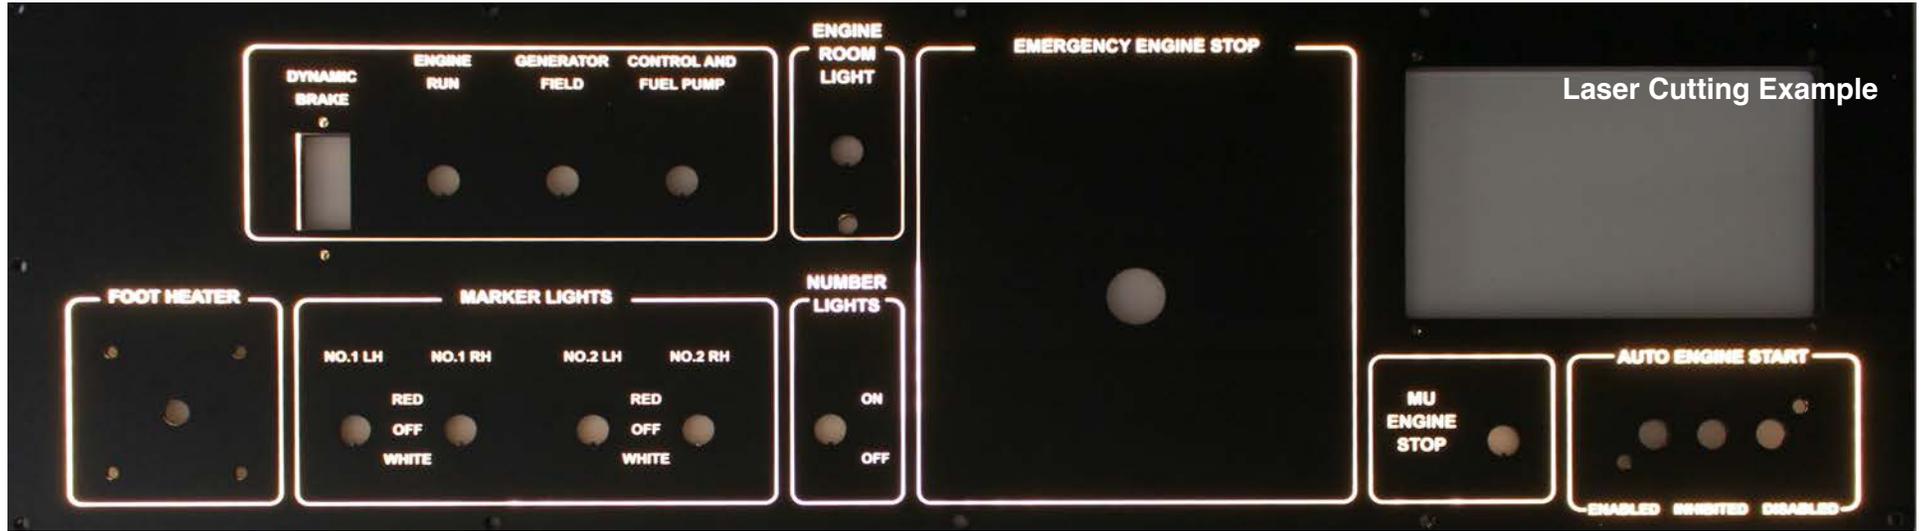

### VINYL CUTTING

Drum & Flatbed Cutters, 40+ Machines, 24-7 Cutting

### INSTALLATION

Graphics, Buildings, Trucks, Trains

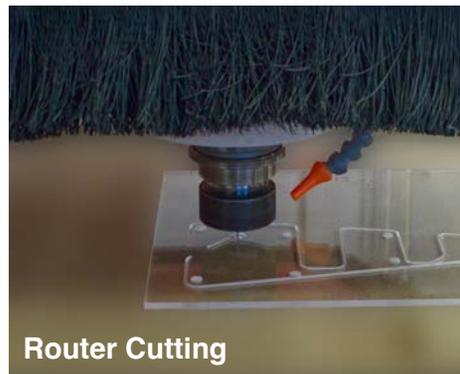

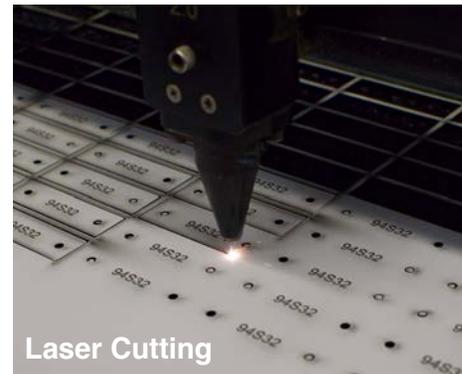

Laser Cutting Example

Flatbed Knife Cutting

Router Cutting

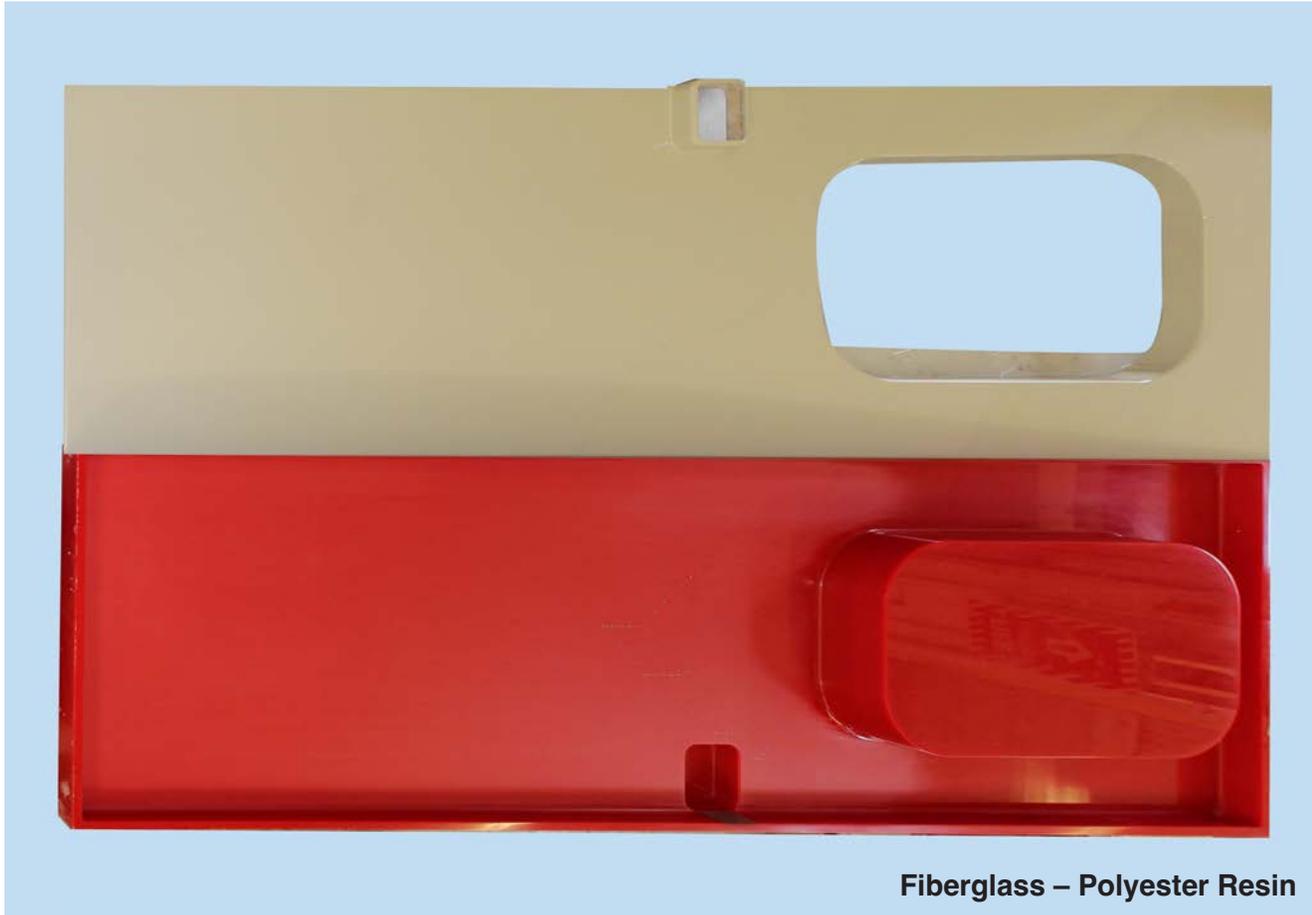

Laser Cutting

Waterjet Cutting
