

Enhance Your Locomotive

Celebrating 60 Years
of Rail Innovation

ROAD NUMBERS

We specialize in manufacturing road numbers to your exact specifications, ensuring the highest quality and durability. Versatile Materials and Customization Options. We offer pre-drilled road numbers or those with adhesive backing.

PRINTABLE ANTI-SKID

Our anti-skid solutions are meticulously designed to improve safety in rail transportation. We offer customizable, printed anti-skid options, allowing for personalized messaging to the anti-skid surfaces.

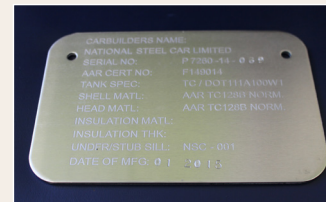

SOUND DAMPING

The INPS Sound Damping System reduces noise and vibration inside the cabin environment, making work more pleasant for your employees. It is fire retardant, as well as scratch and dent resistant.

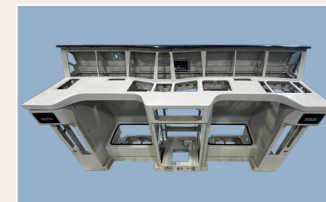

VINYL WRAPS & GRAPHICS

INPS offers premium locomotive wraps that are printed to withstand the toughest conditions. INPS can install your locomotive wrap in 3 days at your location. The wraps serve as fast, cost-effective and environmentally friendly solution.

METAL NAME PLATES

At INPS, we specialize in crafting premium metal plates tailored to meet your specific needs. INPS offers anodized, photo etched, engraved, screen printed and direct surface printing options.

INTERIOR COMPOSITES

INPS composites includes: interior FRP and VF panels, driver desks, washroom modules, stairwells, ceiling panels, window friezes, and arc shields. INPS products meet fire, smoke and toxicity requirements for composites in trains.

DELINEATORS / CONSPICUITY

At INPS, we provide premier conspicuity solutions prioritizing rail safety and visibility. Our range includes top brands like 3M, Orafol, and Avery Dennison Reflective Tape, meeting FRA 224 regulations for railcar markings.

AEI TAGS / READERS / WRITERS

At INPS, we offer compliant AEI Tags and Readers/Writers, supporting installation and maintenance. INPS has a direct distributorship with Transcore.

WINDOWS & GLASS PROTECTION FILM

FRA Type I and Type II Train Glass Window Protection – Available in 1-layer, 2-layer and 4-layer configurations.

BANANA AUXILIARY POWER UNIT (APU)

IEP's APU's allow companies to save on fuel for their locomotive transit vehicles without sacrificing crew comfort. Designed to reduce excess idling, save fuel, reduce locomotive engine wear and keep your crew comfortable.

INSTRUCTIONAL & SAFETY SIGNAGE

INPS offers a large range of instructional and safety signage for locomotives. Polycarbonate signage with 3M adhesive, braille signage, printed decals, raised letter plates, laser etched labels and photoluminescent decals.

LED ILLUMINATED OVERLAYS

Manufactured with high impact acrylic, laser or routed to shape with an embedded LED lighting. Assembled, painted and polycarbonate overlay applied. Our control panels are illuminated with a dimmer switch, for night time readability.

ORANGE - LOCOMOTIVE AIR CONDITIONER (A/C) ORA-2025

ORA-2025 is IEP's enhanced locomotive air conditioner, engineered for superior cooling performance, simplified operation, and long-term reliability in demanding rail environments. High-Efficiency 72VDC Brushless Scroll Compressor - No Converter needed.

ORA-2025-RT ROOF TOP

ORA-2025-RT Rooftop Model delivers all the proven benefits of the ORA-2025 in a fully integrated rooftop configuration designed for installation ease.
